Adobe Acrobat 6 (CS) For Microsoft Office Users

Most Microsoft™ applications can be converted directly to Adobe PDF using the PDF Maker plug-in. It is not as simple as just pressing a button; often fonts aren't embedded properly, color changes occur and receivers can't open the file. This is a class for "the rest of us" — anyone in an office environment. Prerequisite: None

We'll cover: • Proper conversion settings to be used for web, office printing and other categories of PDF files • Creating bookmarks • Working with tagged documents, merging documents (eStapling™) • Paper Capture • Multimedia features
